Prompt Engineering	• Cursor

Professional Experience

2025-
Present

Stefanini Group (Amdocs Client).

Software Engineer

- **Three UK** - I am working as a front end developer for **Three UK(Hutchison 3G UK Ltd), a major UK telecommunications provider.**

In this project , we created e-commerce platform with device catalog, plan builder, and payment processing.

Also Developed B2B portal for enterprise customers with multi-account management.

Built responsive UI supporting both consumer and business customer journeys

Tech stack : Javascript,React.JS,Redux,Redux saga,Tailwind CSS

- **Vodafone Romania** -

Worked on Vodafone Romania's enterprise retail platform, enabling store representatives to manage customer orders for mobile services, broadband, TV, and fixed-line products. Over the past 1 year 3 months, gained strong telecom domain knowledge of Telecom order management, customer onboarding, product catalog, and service provisioning while developing scalable React-based applications.

Tech Stack: React.js, JavaScript, Redux, Redux Saga, Prompt Engineering, Cursor AI, Unix.

Built a Simulator UI tool with SSH integration that enabled testers to manage server data from one application, improving productivity by reducing manual effort and context switching.

Tech Stack: Node.js, React.js, JavaScript, SSH, Prompt Engineering, Cursor AI, Unix.
